Complete Production System with Enterprise Feeder

EN/PRESS

EN/PRESS

SAVE TIME AND MAKE MORE MONEY

The En/Press Digital Multi-Media Press with the patented Enterprise High-speed Feed System and the new Enterprise-SP Feeder offers users an affordable way to go digital and meet the demand for fast, full-color printing. Enterprise's groundbreaking design features a straight, multi-speed feed path for a faster and smoother delivery compared to other feed methods. The complete digital solution is powered by iQueue Workflow that offers new file editing options, new variable data manager, advanced color correction tools and more.

- Ultra-low cost per copy helps to reduce your production expenses
 - Run full color jobs including variable data in a single pass
 - Output is 100% waterproof and laser-safe
 - Built-in Platemaker with Computer-to-Plate (CTP) Technology
 - Always-in-stock consumables in both our Mississauga and Vancouver warehouses
- ↳ Next-business-day delivery or same-business-day pick-up!

IT'S TIME TO UPGRADE YOUR

IMPRESSIA

Your Xante Impressia has been working hard for you, but there's a new envelope printer in town! Increase your print quality and your bottom line by upgrading to the Xante En/Press.

Duplex	Up to 169 gsm	Up to 320 gsm
CMY Yield*	15,000	34,000
Black Yield*	20,000	43,000

Big Bark Graphics in Bolton, Ontario, recently installed a new Xante En/Press Complete Production System

Big Bark was founded by Scott Barker in 2004, serving customers for short to medium runs. They offer their clients unique, custom store fronts for direct-to-print ordering and to create and edit their own branded print jobs. They work extensively with the travel agency, tour operator, and travel supplier markets, as well as real estate agencies. They offer commercial work as well, including envelopes and wedding invitations.

"The decision to move to the En/Press Enterprise System allowed for self-feeding envelope production, without user intervention, and for running multiple jobs at the same time," says Barker. "The iQueue software has been invaluable and is being utilized for quoting all jobs."

Acquiring the En/Press Complete Production system has allowed Big Bark to keep these jobs in house, rather than sending them out, thereby increasing their profitability and decreasing overhead and external expenses.

iQueue

Simply Brilliant Color Workflow

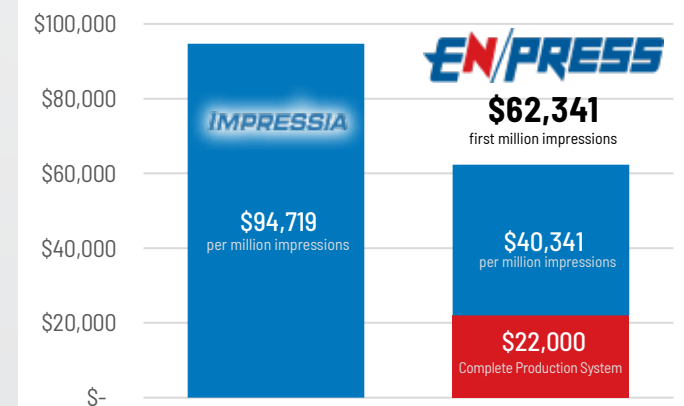

- Improve in-house productivity
- Design templates
- Royalty-free specialty fonts
- Advanced colour matching capability
- Sequential Numbering
- NCR & Multi-part forms
- Job cost estimator

True Adobe® PostScript® is at the core of iQueue and it's packed with advanced imaging features. iQueue could not be easier to use. With beautiful spot color matching, fast variable data, full imposition, and so much more, iQueue Workflow keeps your jobs on the shop floor and out the door. iQueue workflow software includes a site license which means you have unlimited installs for all the users at your shop. Everyone can use all the powerful features of iQueue and you can easily share jobs between users.

**Free, unlimited licenses included with your equipment.
No hidden costs or additional subscription fees!**

Can you afford NOT to upgrade?

Cost per million impressions calculated using 2022 consumables prices and manufacturer's expected yield (based on estimated 5% coverage of a standard letter-sized sheet) for all consumables.
